Scipion-chem course 2026

How are we going to work

Online session - Remote machines

- **Session** will be shared online in https://conecta.csic.es/rooms/vt0-ldy-ttv-xmi/join
- We will be working in **remote Amazon machines** with the necessary resources and **Scipion-chem and plugins already installed**. In order to connect to these machines, you just need to clink on the link in the materials. It will be something like http://13.43.13.228/vnc.html?resize=remote
- Slides will be shared if requested
- You can connect to **wifi “cursos”** with **password “cursoUCC.2026”**

	10 nov	11 nov	12 nov
9:00			
		Review (DH)	Review (DH)
10:00	Introduction to VDS (DH)	Ligand filtering (BP)	Molecular Dynamics (JA)
	Introduction to Scipion (DH)		
11:00	**Coffee break**	**Coffee break**	**Coffee break**
	Simple VDS (DH)	High-throughput screening (BP)	Atomic Modeling (BP)
12:00			
13:00	**Lunch Break**	**Lunch Break**	**Lunch Break**
14:00	Selective VDS (DH)	Flexible Docking (JA)	Protein-Protein Interactions (JM)
15:00		Lead Optimization (JA)	
16:00	**Coffee break**	**Coffee break**	**Coffee break**
	Ligand Filtering (BP)	Molecular Dynamics (JA)	One-to-one tutor meetings
17:00			
	End of day	**End of day**	**Closing remarks**
